

## Activities we can do together

### **You will need:**

- String, wool or thread
- Leaves
- Different paints
- P.V.A. Glue
- A stick

### **Instructions:**

Go for a walk and gather some leaves. Choose leaves that you like the shape of.

Then look for a stick or twig that you like the shape of. Choose a stick that is long enough and thick enough to wrap the thread around in several places.

Once home, dry your leaves and stick on some paper.

Once dry, paint your leaves with different colours. Be creative, you could paint on patterns, spots or stripes. Maybe you want to glue sequins or beads onto your leaves.

Tie the thread onto the ends of the leaves and wrap the other end to your stick. Use the glue to help secure the ends at either end. Tie string onto the middle of the stick and tie a loop at the other end so you can hang it up.

Once dry hang your nature mobile in a place for everyone to admire.
